Super Bright
Daylight Readable

The Hathorn M12 Control Module is equipped with a 12.1" VividHD™ LCD screen with almost twice the brightness of the leading brand, making it the largest and best daylight readable monitor in the industry. The M12 is the pro's choice for any light condition (including direct sunshine), providing stunning HD picture quality, high contrast and 8X digital "pan & zoom" technology revealing details missed by other lateral push cameras. Whether you are working in brutal Canadian winters or hot Arizona summers it's time to...

Upgrade to VividHD™!
