

Jet-Cam

JET and TV Simultaneously
Adaptable to any Ratech System
Easy to use - sets up in minutes
Works with any sewer cleaning jetter
See what you are cleaning

The NEW Ratech Jet-Cam allows users of any Ratech system to add a low cost, durable machined skid to their camera and jetter. This new skid propels down the pipeline and both cleans with your jetter and video's your pipeline at the same time. Using Ratech's built-in camera you can see clearly the condition of the pipeline while your jetter cleans the line.

Available to mount on Ratech's Jet-Cam skid is your choice of black and white, standard color, self-leveling or Pan n' Tilt® camera. You can inspect 6-18" pipes with ease by hooking the Jet-Cam skid to your camera and jetter hose.

A deluxe or basic setup package is available. The basic setup includes a manual hand-crank reel whereas the deluxe setup includes a motorized drum reel with automatic rewind and leveling.

Warranty

One year parts and labor against defects in manufacturing. System must be returned to factory for warranty repairs. Damage caused by user or carrier will not be covered under Ratech's standard warranty.
